J. M. Trowbridge : The Cider Makers' Hand Book - A Complete Guide for Making and Keeping Pure Cider
before purchasing it in order to gage whether or not it would be worth my time, and all praised The Cider Makers'
Hand Book - A Complete Guide for Making and Keeping Pure Cider:

0 of 0 people found the following review helpful. If ye don't speaketh like this, don't buyeth the bookBy ErikI am a seasoned brewer, wine maker and am beginning to venture into cider making. I was expecting this book to outline traditional cider making practices... I'm not sure what I've just read - because it is written as though it was published in 1910. No relevant information to the 21st Century artisan home brewer.0 of 0 people found the following review helpful. Old fashioned methods.By landakerOk book if you are wanting to make cider the old fashioned way. A difficult read so not going to read it. Not for me. Requesting to return book.

This book is thoroughly recommended for inclusion on the bookshelf of the home cider brewing enthusiast. An expert on the subject writes a comprehensive guide to the making cider with material dating back to the 1900s and before. The content has been carefully selected for its interest and relevance to a modern audience.
