Mai Leung : The classic Chinese cook book before purchasing it in order to gauge whether or not it would be worth my time, and all praised The classic Chinese cook book:

0 of 0 people found the following review helpful. it's the best Chinese cook book everBy Gretchen B.Bought this for my Grandson, it's the best Chinese cook book ever.1 of 1 people found the following review helpful. I love this book and her other book "Dim Sum and Other Chinese Street Food"By J. YeeFirst, I am Chinese and was born and raised here in NYC so I have a lot of exposure to Chinese food. It's well written, easy to follow and the dishes she covers are not too exotic (which might discourage some people) but still traditional and popular among the Chinese culinary offerings. Another reason why I like this book so much is because it describes/explains the ingredients that you would not find in you typical American supermaket. This way when you go to an asian market, you won't be as intimidated.0 of 0 people found the following review helpful. Not too impressed with this one.By genieI was impressed with the dimsum and street food book by mai leung and went to get this one as well. Recipes are very simple and very easy to follow specially for begginers. Some cantonese recipes in here which I am familiar with is not very accurate when it comes to flavor and taste. I still think this book is good for those who would love to try some basic chinese cooking.
