Stuart A. Kallen : The Complete Idiot's Guide To Beer before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Complete Idiot's Guide To Beer:

0 of 0 people found the following review helpful. Another good introductory bookBy Long HunterSince my friends have gotten me into home brewing, I decided to get a better understanding of all the different types of beers out there and this book was very helpful. Explained the process of brewing and the ingredients used and then went on to discuss all the different types, like ales and lagers and so forth. A very useful book.2 of 2 people found the following review helpful. Good Fun Read, Lots of informationBy Homers0Need to understand beer better? this is a great place to start, with a complete history of beer mixed with lots of interesting facts and fun trivia. Great place to start for a beginner but there is enough here to benefit any fan of the drink.

You're no idiot, of course. And you're no stranger to beer. You've had your share in the ballparks, at frat parties, and while in front of the TV set with a can in one hand and a remote in the other. But when it comes to choosing

something other than your mass-produced American brew, you'd rather not enter unfamiliar territory. Don't wimp out yet! *The Complete Idiot's Guide to Beer* helps you learn everything you need to choose and enjoy beer of all kinds--from savory delights imported from Canada and Europe to the microwbrewing revolution right here in the United States. This book will make you feel confident about serving beer, distinguishing a great beer from a stale ale, and even just talking about it. In this *Complete Idiot's Guide*, you get:
