What a wonderful resource!By Zaine RidlingI love everything about this book except its font size. Its tiny print is a handicap in the kitchen. However, its breadth of Asian cooking is near encyclopedic, and it's loaded with step-by-step photos and tips and traps for each dish. You'll get several cultures' take on chicken, beef,

and dessert dishes, some with similar names. The binding is nice because it stays open. But unless you have eyes like an eagle, bring a magnifying glass. The recipes are worth the trouble. 2 of 2 people found the following review helpful. Great Book to have By Limlim Its a great book to have for anyone intrested in making their chinese/Asian meals. The step by step pictures really make it worth it.

The different cuisines of Asia are as varied and exciting as the vast continent itself. Four hundred recipes from China, Malaysia, Indonesia, the Philippines, Vietnam, Japan and the Indian subcontinent have been collected together in this magnificent book.
