**Steffi Berne : The Cookie Jar Cookbook: Chocolate Skinnies, Strawberry Gems, . . . and Other Cookie Favorites to Fill Americas Most Collectible Containers** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Cookie Jar Cookbook: Chocolate Skinnies, Strawberry Gems, . . . and Other Cookie Favorites to Fill Americas Most Collectible Containers:

1 of 1 people found the following review helpful. As much about cookie jars as cookiesBy Madelyn PryorWith 80 cookie recipes, Steffi Berne presents a pleasant little cookbook. So why then only 3 stars? This is the type of cookbook that will please about half its viewers while leaving the rest disappointed.The vast majority of the cookie recipes presented here are very complex and would be quite challenging for the novice baker. A great many of the cookies are described as `no too sweet' and use ingredients such as bittersweet chocolate more suited for adult tastes than little taste buds. On the other hand, since most of the cookies are complex advanced bakers might want to give this a look, as well as people who like not too sweet cookies.Also, the cookie jar collection of the author is features prominently, along with collector resources in the back. So, if cookie jars are one of your interests, then you should be delighted.Still I recommend caution before rushing out and purchasing this one.0 of 0 people found the following

review helpful. Interesting book  
By Loves cookbooks  
I really enjoyed this cookbook. Some of the recipes are geared for an experienced baker but there are many that an average cook like myself can make. I also thought the pictures and cookie jars added a lot of interest to the book.
