I was hoping for something a bit more ambitious on the author's part. 0 of 0 people found the following review helpful. Five Stars By Janet Herrala Purchased as a gift. Recipient loves it!! 0 of 0 people found the following review helpful. Horrible name for this calendar! By Katie Ranft This calendar is ridiculous! There aren't 365 cupcake recipes in it, some days there are muffins, which are not cupcakes!! Other days they just change one ingredient from the recipe from the day before. As if you aren't smart enough to figure out if you want blueberries instead of strawberries yourself then just add blueberries instead of strawberries!

Now in its eighth year, The Cupcake Calendar remains a perennial best-seller. With recipes taken from our top-selling book, 500 Cupcakes, you are sure to find a cupcake for every occasion and every mood. Whether you are looking for something simple or something chic, in this calendar you will find hundreds of delicious easy-to-follow recipes paired with beautiful photographs.
