Some of them seem like something is missing and the cupcake does not come out ask you would think. I bake a lot and never had this problem with a book. Nice to look at but disappointed.0 of 0 people found the following review helpful. Buy the actual cupcakes, not the bookBy PunkPrincess30I love Georgetown Cupcakes! I had them shipped in for my birthday recently and spent over \$100. They are WORTH it! This book? I don't think the recipes are the actual recipes. The red velvet from Georgetown is terrific! The red velvet in the book? Well, I use a different recipe because this one isn't great. If you want cupcakes like theirs, order them.0 of 0 people found the following review helpful. I love this bookBy SophieBearI love this book. I read it from beginning to end in one day. It makes me feel I am right there in the bakery with them. The recipes are awesome and this is my
