You will love it too! 0 of 0 people found the following review helpful. One Star By Candy Lloyd Not the cupcake book by this publisher the I was hoping/thought I would be receiving. 2 of 2 people found the following review helpful. Excellent, but... By Catherine Since I can't give half stars, I'll say that I give this book three and a half stars. Now, let me start off by saying this book has some of the greatest cupcake ideas I've seen in awhile. I especially love the caramel apple and the macadamia maple. The directions are clear, the pictures are gorgeous. I made the caramel apple cupcakes, and when I tasted them, something seemed missing. As I went through the recipe with my father, a professional baker for forty

years, I discovered the recipe lacked salt. And a quick flip through the book showed none of the recipes included salt. I don't know if that was on purpose or not, but salt adds a LOT to baked ingredients, not just "salty flavor." A little bit would have set off the cinnamon and the apple flavors in the cupcakes. The cupcakes weren't bad, let me say, they just lacked the full flavor I would have expected. I wished I could give the book a higher rating, and maybe it's just because I have a keener palate due to my time in culinary school and years of working in a bakery. Other people may not mind, but I do know in the future I will be adding some salt to every recipe I use from this otherwise pretty awesome book. We did eat every single cupcake I made, though!

This book heralds the cupcake: an iconic, portable and delicious baked good well-loved around the world! With delicious, easy to make recipes including step by step instructions and full-color photos, this book will inspire you to create a wealth of tasty sweet treats! We all love cupcakes and this book will turn readers into bakers in no time flat. With 80 recipes all accompanied by clear instructions and full color photographs, as well as decorating tips and templates, frosting recipes and techniques, this book is 224 pages of pure inspiration. And at this price the entire book costs less than your average cupcake! Introduction includes exhaustive lists of tips techniques as well as creative variations.
