Ian Smiley, Eric Watson, Michael Delevante : The Distiller's Guide to Rum before purchasing it in order to gage whether or not it would be worth my time, and all praised The Distiller's Guide to Rum:

1 of 1 people found the following review helpful. Its ok...By jcguppyInteresting. Most of the stuff you can find online with Google. Was hoping for mre.0 of 0 people found the following review helpful. A great read for anyone interested in distilling rumBy NoNameBrewerThis book is full of valuable information, but is written a little choppy from chapter to chapter. A great read for anyone interested in distilling rum.0 of 0 people found the following review

helpful. Great book By Joseph A. Sanchez Well written and educational. I've already read the book twice. Has good information in the book.

This book is inspired by the recent popularity of rum among cocktail circles, and by the advent of so many new rum craft distilleries in North America. Included is: the story of rum and how it is made, the ingredients, equipment, and processes used to make rum; the lubricious effects of barrel aging, and the various ways that it is done. And, a step-by-step description on how to make a 155-gallon batch of rum mash and how to distill and age it-including a recipe.
