Britt Gillette : The Dittohead's Guide to Adult Beverages before purchasing it in order to gage whether or not it would be worth my time, and all praised The Dittohead's Guide to Adult Beverages:

1 of 1 people found the following review helpful. A great book!By The Reviewer Formerly Known as Kurt JohnsonI am still laughing! If you know anyone who is a fan of radio raconteur Rush Limbaugh, then this is the gift to buy him or her. Drawing on Rush's massively politically incorrect/leave no Liberal sacred cow un-skewered humor, author Britt Gillette presents 65 adult beverages. But, these are not just any old adult beverages, they are Limbaugh-esque adult beverages with names running from Alec (Baldwin)'s Bon Voyage Black and Tan through the Wife Training Walter (E. Smith). Yeah, this is a great book! The author does a great job of capturing Rush's style and

humor, and produces a really funny book. Any fan of Rush will immediately latch onto this book and get a great thrill out of it. I loved this book, and give it my highest recommendations. Pull up a comfortable chair, pour yourself a Grape Gorbasm, and read this book!

2 of 3 people found the following review helpful. Tasty!

By Jeffrey Leach I had the pleasure of reading Britt Gillette's terrifying apocalyptic thriller "Conquest of Paradise: An End-Times Nano-Thriller" back when the war in Iraq started. It's a great yarn concerning the destruction of the world through the magic of self-replicating nanotechnology (eat your heart out, Ray Kurzweil), but the book gave no indication about Gillette's next effort. From the world dissolving into gray goo to "The Dittohead's Guide to Adult Beverages." I never saw that leap coming! Anyway, it turns out that Gillette is quite the Rush Limbaugh fan. I don't really listen to the man on a regular basis even though I consider myself a card-carrying member of the far right. I am, however, familiar enough with Limbaugh's self-referential vocabulary that I found this book hilarious. Actually, you don't need to know anything about Limbaugh in order to get a kick out of this slim read. All you need is a healthy disdain for all things liberal. Well, that and a well-stocked bar. How else will you whip up a batch of Flip-Flopper Fizz, Pelosi Painkillers, and Entitle-Mint Juleps? None of these drinks make sense to you? What are you, a member of NARAL? If you don't understand what's going on, please turn to the first section of the guide. Gillette offers up a helpful lexicon of Rush Limbaugh's always humorous labels. You have probably heard and will understand terms like "Dubya," "Dittohead," and "Thought Police." Those are the easy ones. If you want to mix the drinks in this book, however, you need to know a few more. Like "Calypso Louie," used to describe the inimitable Louis Farrakhan, the current leader of the Nation of Islam. Then there is "Club G'itmo," the country club "prison" where taxpayers provide funds in order to feed terrorist inmates the best meals money can buy. "Breck Girl," a personal favorite, is a term Rush uses to describe former Democratic vice presidential candidate John Edwards. "Great Moderates in History" is a nonexistent history book, and "Ronaldus Magnus" is an affectionate term for the late president Ronald Reagan. Are you getting the idea yet? No? What are you, an ACLU lawyer? Study Rush's lexicon before moving on to the drink menu. We start off with Alec's Bon Voyage Black and Tan. Gillette recommends the glass you should use (A "National Lampoon's European Vacation" Souvenir German Stein), offers up the ingredients (A half pint of Stout, a half pint of Lager, one empty promise, and one leftist Hollywood actor) along with pertinent commentary on each component. Follow the mixing instructions closely, learn about the origin of the drink (this one based on Alec Baldwin's promise to leave the United States if Bush won in 2004--why are you still here, Alec?), and be sure and read the special notes that almost always grace each drink recipe. How about another one? The very next drink will do quite nicely. It's "Oprah's Whine," requiring a bit of gin, some grenadine, light cream, and lots of crying. Good stuff, these drinks. Well, they sound good. I can't try any of them, though. Drink enough of these things and you might wake up wondering why you're sitting in the middle of one of Angela Davis's graduate seminars at the University of California, Santa Cruz. You can try to mix up all sorts of fuzzy liberal drinks using this book as a guide. Try the Grape Gorbasm, the (Robert) Byrd Brain, the Coco Loco Carville (throbbing forehead vein optional), Pointy-Headed Pineapple Professor Punch, and Breck Girl Bliss. If your liver doesn't look like Ted Kennedy's face by the time you finish mixing these babies up, you are simply not trying hard enough! If the UFO/Yakub theories of Louis Farrakhan don't make sense to you after imbibing the drinks described in this book, keep drinking! If you start penning little love notes to Nancy Pelosi and Hillary Clinton, or show up at one of their press conferences with the words "I love you" written on your eyelids after chugging a few drinks from this book...wait a minute, you better stop. I'm seeing a long stint at the Betty Ford clinic in your future. Britt Gillette has definitely penned one of the funniest political books of the last few years with "The Dittohead's Guide to Adult Beverages." Since I don't listen to Rush Limbaugh all that much, I wonder if he has seen this book. Probably, and I'll bet he loved every word in it. Congratulations to the author on a job well done. He deserves the praise this book has received on many sites across the Internet. Rush, if you happen to read this review, you should give Britt an autographed first edition copy of "Great Moderates in History." He deserves it!

10 of 12 people found the following review helpful. A bar guide with an attitude and lots of laughs

By Craig Matteson So, if you or someone you care about is looking for a humorous bar guide, this can fit the bill - provided they are a conservative. Britt Gillette starts things off with a glossary of terms that Rush uses on his show and dittoheads of any experience will know. There are then nine chapters of recipes for drinks that take a satirical twist on well known drinks. For example, the Fuzzy Navel NEA. You start with a coffee mug from the NEA, then a recipe is provided of the usual vodka, peach schnapps, orange juice, twist of orange peel. The joke here is that the parts of each are given in multiple parts with the guide being sure of the right proportions, plus a copy of "Heather Has Two Mommies" is required. The author also provides humorous instructions and notes on the origins of each drink with special notes. Now, frankly, I am a non-drinker and don't have any direct use for these drink instructions. However, even non-drinkers can be called upon to mix drinks for friends at parties and this book can add some fun to the process - at least some conversation. Face it, mixology is about fun and having a book like this can add to that process. For the right person, this can make a great gift.

Britt Gillette started listening to The Rush Limbaugh Show at the age of twelve; a daily ritual that he has continued for over fifteen years. During that time, Rush coined the term "adult beverages" to refer to alcoholic drinks.

Yet millions of DITTOHEADS across the Fruited Plain lacked an authoritative source for the best adult beverages. So Britt created The Dittohead's Guide to Adult Beverages, which incorporates the show's trademark irreverent humor in sixty-five humorous adult beverage recipes that fans of the show will find hilarious and irresistible.

From the Author If you enjoy listening to The Rush Limbaugh Show, you'll love The Dittohead's Guide to Adult Beverages! How can I be so sure? Because this book wasn't written by some arts croissant crowd liberal Manhattan publishing executive out to make a quick buck. It was written by me — a card-carrying dittohead who has spent over half his life immersed in the infectious airwaves of EIB. Because of my track record as an avid attendee of The Limbaugh Institute for Advanced Conservative Studies, I'm equipped with a superb knowledge of the Limbaugh Lexicon and Rush Limbaugh's trademark irreverent humor. Each can be found in the sixty-five humorous recipes that comprise The Dittohead's Guide to Adult Beverages, including such notable adult beverages as the Rio Linda Rouser, EIB Ecstasy Elixir, and Club G'itmo Guzzler. Trust me, Rush fans will love this book... But don't just take my word for it, read the sample recipes on and decide for yourself...! Britt Gillette

Sample recipes from The Dittohead's Guide to Adult Beverages:

ENVIRONMENTALIST WACKO WHISKEY
Glass: Your Own Cupped Hands
Ingredients: 1 Part Triple Sec (as long as it wasn't made in a wicked corporate factory) 2 Parts Whiskey (homemade by Sierra Club members in an earth-friendly distillery) 1 Part Grain Alcohol (flammable liquid used by the Earth Liberation Front to burn SUVs) 1 Frozen Pond (the result of any number of man-made environmental catastrophes) 1 Dolphin (the pinnacle of creation, according to environmentalist wackos)
Instructions: First, cut several ice cubes from the surface of a frozen pond (these should be abundant due to the smog effect blocking the sun's rays in preparation for the coming ice age). Avoid using a freezer to produce your ice cubes, because freezers are a capitalist-concocted first cousin of man's worst enemy — the air conditioner. Next, combine ingredients (along with your pond cubes) in your own cupped hands. Don't you dare use a glass instead of your hands, because the process of making glass destroys Mother Earth. Origin: This adult beverage is named in honor of environmentalist wackos, a fringe movement (not to be confused with serious and responsible ecology-minded people) that believes mankind is the greatest threat to nature, seeks to destroy private property, and longs to establish a socialist regime to impose its nuttiness on the rest of us. Special Note: For years environmentalist wackos have told us that dolphins are superior to humans — despite the absence of dolphin highways, libraries, or institutions of higher learning. But for all their supposed brilliance, I challenge any environmentalist wacko to find a dolphin that can make an adult beverage as good as this one!

ENTITLE-MINT JULEP
Glass: Any Glass You've Taken from Someone Else (preferably a rich person)
Ingredients: 1 Part Bourbon (procured by means of a monthly welfare check) 1 Mint Sprig (purchased with food stamps allocated for your 27 children) Sugar Syrup (obtained via the "earned-income, sugar syrup tax credit") Millions of Government-Dependent Cry Babies
Instructions: First, call your congressman and demand that each of the above ingredients be given to you free of charge as part of a new federal adult beverage entitlement program. Next, obtain a drinking glass that has been commandeered from someone else's private collection (preferably by the government). Finally, pour each of the federally mandated entitlement ingredients into the stolen glass. Consume while living off 13 extended weeks of unemployment checks while complaining that "the rich" don't pay "their fair share" of the nation's tax burden. Origin: This adult beverage is named in honor of government largesse. According to Rush, our national symbol, the eagle, needs to be replaced by a huge sow that has a lot of teats and a bunch of fat little piglets hanging on them, all trying to suckle as much nourishment from them as possible. Special Note: This space was reserved for a humorous comment, but that would require thought and effort on behalf of the author (who feels he is entitled to your purchase of this book whether you find it entertaining or not).
