in print, but it's the book I've learned to cook Chinese food from when I was stationed in Jax, Fla. 50 yrs. ago hundreds
of miles away from a "real" Chinese restaurant. With the foundation I gained from this book, I can cook equal or better
the taste of 80% of whatever you see on Chinese restaurant menus. No boast.0 of 0 people found the following review

ethnic cookbooks. this one is okay. Basically a disappointment. It's a basic Chinese cookbook with nothing special in
it, which is what I was hoping for. Oh well. Live and learn, huh? If you know nothing of Chinese food, you may like
it. I didn't.
