I found it difficult to obtain that real Thai taste in the food I was cooking until I read this book from Heather Thomas. She knows how to explain cooking in a very easy and understandable manner. She explains what ingredients to use and substitutes for those if they are not readily available in your area. Detailed photographs help you through all the sequences in a step by step manner. How easy it is to cook Thai with Heather Thomas. If you are already experienced in the Siamise cuisine, I would also highly recommend The Original Thai Cookbook by Jennifer Brennan.
