Cile Bellefleur Burbidge : The Fine Art of Cake Decorating before purchasing it in order to gage whether or not it would be worth my time, and all praised The Fine Art of Cake Decorating:

1 of 2 people found the following review helpful. Lovely book!By JayTook a bit longer to arrive than most used books I've ordered, but put that down to pesky customs delay.Book was in great shape considering its an ex library book, so very happy with that. Content is great, lots of instructions with black white photo's accompanying the how to's. I was a bit surprised some techniques I was sure would be in the book, were not included. Hence the 4 stars. All in all, this a wonderful book if you're interesting in learning the almost forgotten art, of piping with royal icing.0 of 0 people found the following review helpful. One of my favorite advanced cake decorating booksBy Potluck QueenA wonderful old book that is well written well done illustrations. Very basic information on high end decorating with royal icing with easy to follow directions a few beautiful photographs.If you want to know if this book is for you, go to your local library. If they don't have a copy there is always the option of the Inter-Library Loan procedure (books usually take about 3 weeks to arrive). I almost always preview books from the library before purchasing ... it has saved a lot of disappointment
