It's not a large book and has a soft binding so that it's easy to put in your purse and take with you. Because of the location of Canada they probably bake more during their extended cold weather. There's lots of hints and really educational things that I've never heard of and I worked in the school cafeteria (cook) for a couple of years way back when they didn't use fast food. I learned there the accuracy of weighing ingredients. A few of the recipes are

weighed or some are a mixture of both weight and measure. These people offer lots of what I call 'pearls' when you're wanting a really good recipe. Five Roses is the brand of flour. I learned about 20 years ago (I'm now almost 70) that you need to use the type flour for the type of baking you're doing. This is also something fun to look into. I have yet to try any of the recipes but I'm going to order some of the flour tho it's a little pricey and give it a try. It's still a little hot here in OK. If you like to cook or should I say bake I think you would like this cook book. 1 of 1 people found the following review helpful. Classic FiveRosesCook BookBy Ruth KingI am very happy with this book and found recipes that I couldn't find anywhere else. My mother should have hers and as a result I had to have a copy I was very happy to have found it so easily thanks 3 of 3 people found the following review helpful. NiceBy Denise DuboisI really wanted the french version of this book as my mother owned it for years. But I am just as happy to have an english version of this book. Bought the same version for my mom since she lost her original french version. I remember the pancakes she made from this book. They are a treasured memory for me and my family

In 1915, the Five Roses Cook Book was in daily use in nearly 650,000 Canadian kitchens - practically one copy for every second Canadian home. Here you will find a faithful reprint of this amazing book. "Enjoy the Five Roses Cook Book as a charming glimpse into the past, and as my grandmother did, as a friend and helper." - Elizabeth Baird, food editor at Canadian Living Magazine
