Not only do the recipes taste authentic, they are healthy and simple to make. The detailed information and pictures in the beginning of the book guide Thai cooking novices through the wide world of

new ingredients and even where to find them. I read the other review and I am confused because my cookbook looks exactly like the one advertised and has around 180 recipes and super detailed beautiful pictures. All in all this is a cookbook I go back to over and over again when I'm feeling bored with my cooking routine. 0 of 1 people found the following review helpful. Five Stars By James L. By Laurie The item that came was not as described. Instead I received an older version of this book. It has only 150 recipes, and far fewer pages. I am disappointed and upset that they did not truthfully depict what they were selling, but it is not worth spending the money to return it, so I'll just keep it, and purchase the book I originally wanted from somewhere else. Will not purchase from this seller again.

A beautiful guide to one of the world's finest cuisines - the ingredients, techniques and recipes.
