Diana Dalsass : The Good Cake Book before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Good Cake Book:

0 of 0 people found the following review helpful. Cakes for adult tastes By Jodi Henley I have spent more than a decade trying to remember the name of this book and I'm happy I did. This is the ultimate delicious cake book. None of the cakes are too sweet, or overloaded with frosting. They're very much cakes for adults who can't do justice to a 9x13 pan or double decker extravaganza. My favorite is the simple carrot cake and lemon. I'd forgotten to write them down when I borrowed this from the library and now I own the book. It's a good thing. 3 of 3 people found the following review helpful. GREAT Cake Book!!! By Chef de Garde Manger Everyone that loves to bake or cook should have this book in their kitchen!!! The Good Cake Book is wonderful. Full of traditional recipes that have been around forever. Buy it, you'll love it!!! 2 of 3 people found the following review helpful. A True Kitchen Staple By Lyndon dees I think that ANYONE who enjoys cake should have this book. It contains recipes for all types of cakes but none of them overly complex or fussy to make, They are flavorful, fit every need or desire, and are not full of ingredients or techniques that are overly technical or difficult or hard to find. In many ways this book streamlines and simplifies cake making, and makes a great, tasty homemade cake as easy or easier to make than a store bought chemical laden artificial tasting cake from a mix. I bought my first copy of this over 20 years ago and have worn out 3 copies. My kitchen is NEVER without a copy of this. I like her newer version, but it is NOT a replacement for this version.

Offers detailed instructions for the quick and easy preparation of a variety of cakes containing fruit, vegetables, chocolate, nuts, jam, molasses, liqueurs, and other ingredients.
