Max Watkins : The Healthy Homemade Pizza Cookbook: Mouth Watering Pizza Recipes to Make from the Comfort of Your Home before purchasing it in order to gage whether or not it would be worth my time, and all praised The Healthy Homemade Pizza Cookbook: Mouth Watering Pizza Recipes to Make from the Comfort of Your Home:

0 of 0 people found the following review helpful. Confusing, incomplete. By Dave Another junk e-book. Not worth it even when it's free. Definitely not worth paying for. Both the ingredient lists and the instructions are confusing, and are not standard terminology for English language cookbooks. "1-1/2 tsp salt and pepper." Does that mean 1-1/2 tsp of a salt-pepper mix (like what is available in some stores), or does it mean 1-1/2 tsp salt AND 1-1/2 tsp pepper? There is ONE pizza dough recipe given, and it does not include any leavening or yeast. Very few recipes give a size/diameter of the pizza crust to use. The dough recipe does not say how many crusts to divide it into. I could give more examples, but I don't want to do the author's editing job for them. The author just doesn't know what they are doing, or how to write recipes for an English-speaking audience. It's not just a translation problem, the author doesn't know to write out a recipe. 0 of 0 people found the following review helpful. Good ideas for a variety of toppings but probably nothing ... By S. Schindel Extremely basic! Good ideas for a variety of toppings but probably nothing you couldn't figure out on your own. The first two recipes in the book are exactly the same with different titles which I thought was strange. On Kindle it's \$2.99 and for that it's a handy little book for ideas. I paid \$6.99 for the soft cover and I think that was too much for what it is. 0 of 0 people found the following review helpful. great pizza that good for you By Rusty Pizza is one of my favorite things to cook these are delicious and nourishes. So you can enjoy your pizza without all the guilt. So enjoy your pizzas and enjoy your day.

Did you know that one in eight Americans eats pizza on any given day? It's a national favorite and a delicious tradition. Pizza is one of the most delicious foods that there is, and it is incredibly easy to make. Why pay for greasy and lukewarm delivery pizza when you can make one with exactly what you want on it in the comfort of your home? You can easily and affordably customize the toppings you want, the cheese you want and the sauce you want. Don't settle for a pre-made pizza that you might like, make your own that you know yours;ll love!
