**Rhen C. Hoehn : The Home Wine Making Log Book** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Home Wine Making Log Book:

0 of 0 people found the following review helpful. A good log book for those that write down recipes/notesBy TommyI make wine. Not a lot, but probably a five gallon batch every other week. For what I use it for, it is perfect and at the price point it is unbeatable. The pages are not super thin like I have seen from other books and my pen marks have yet to bleed through the pages. I love that it has a table of contents and plenty of room for my own notes. I wish the

remarks were set up differently, but I am yet to find a book that has it set up how I want. Look inside this to see if the page set up will work for you. If so, get it. The quality is great!
