Shackelford Purchased as a gift for my husband who does homebrewing. Much of the information at the beginning is fairly elementary for those who have been brewing for a while, so this is great for anyone who's new to the process. The illustrations are beautiful and there's some great info on varieties of hops, etc for more advanced brewing. 4 of 4 people found the following review helpful. Enjoyed reading this book By Michelle Dean I love beer and I have been interested in learning about the brewing process. This book was very easy to read and understand. I would recommend to anyone who would like a better understanding of what it takes to brew your own beer. 3 of 3 people found the following review helpful. Great read By Carol Wollard Awesome details for beginning brewers. Easy to understand and follow. I'd recommend this as a "how to" for all new brewers

If you've ever complained about a watery-tasting lager, wondered just what was causing that certain flavor in your favorite porter, or lamented the price of quality craft ale, then it might be time to try perfecting your own brew at home. Whether you're an established beer snob or just want to try your hand at homebrewing, *The Illustrated Guide to Brewing Beer* will teach you everything you need to know to get started in this increasingly popular hobby. Teaching you all about beer and the few very simple components required to make it—malt, hops, yeast, and water—this comprehensive guide includes:

- * An overview of the brewing process
- * Detailed procedures for extract, partial-mash, and all-grain brewing
- * Explanations of the equipment needed for each process and methods for cleaning and sanitizing
- * Causes of off-flavors and aromas and how to correct them
- * How to make bottling your beer easy
- * A full glossary
- * And much more

About the Author Matthew Schaefer, an attorney, has been homebrewing for over fifteen years. He started brewing with extracts in college, before moving his operations to a tiny one-bedroom apartment where he performed partial mashes on a stove top. Guided by tradition informed by latest brewing science, he currently brews on a ten-gallon all-grain system at his home in Astoria, New York, where he lives with his wife, Kimberly, and son, Evan.
