This booklet is not worth your time even if you get it for free.2 of 3 people found the following review helpful. this book is a total waste of time unless you're interest is odd turns of ...By James Lucketthis book is a total waste of time unless you're interest is odd turns of phrase and bad grammar and recipes that aren't always complete, clear or even correct. i wonder if martha stephenson is even a real person and if she is, if she has any actually real life practical knowledge and experience of japanese cooking. still, i love cookbooks, and i'll admit there's a certain completist satisfaction and fascination in owning this slim volume, i mean bible.
