CallenHave definitely hit the mother load with Martin Yan's Chinese cook books and this one ranks right up there with his others that I have bought. I love his format - information, interspersed with recipes, interspersed with anecdotes. It really is a wonderful experience going through his cook books and selecting a recipe to try; it's almost like spending a charming evening with a friend chatting and learning while making a deliciously tasteful meal. A very endearing quality that makes Martin one of my favorite Chinese cook book authors.0 of 0 people found the following review helpful. Great bookBy VictoriaI had this cookbook before but had lost it. I searched for a replacement since there are great recipes that are only found in this book. I finally found this book here on and could not be happier!0 of 0 people found the following review helpful. Five StarsBy Chris ProvostReally nice book
