By Devine Love I have two friends who always make muffins from this book (a new type each time) to bring to potlucks, brunches, and parties. Their muffins are always the biggest food hit at the event, inspiring guests to inquire, "Where did you get that recipe?! I want the recipe! They're AMAZING!" The friends can never recall the exact name of the Muffin Book. We joke that they just don't want to give away their secret treasured recipe source and that they like being the hit of the party with such an easy thing to make as muffins. The muffins have always left all of us kind of desperate to get the recipe each time we try a new muffin. Finally, I bought the book and am now too enjoying these delectable and delightful muffins! Thanks to the authors for creating it for us! I love the muffins, especially hot out of the oven!!! YUMMMM!!! "The proof is in the tasting of the pudding," once you've tasted these delicious muffins, you'll want another and another and another. 5 of 5 people found the following review helpful. A beautiful little book! By Free State I bought this for my 11-year-old who reacted by baking muffins all summer long. The pictures are beautiful, the instructions clear, and the recipes delectable. A sweet little book that inspires one to bake. 1 of 1 people found the following review helpful. Muffin By Underdirt Ordered for a friend who wanted 2nd copy for her mother...so
