FINALLY, A BOOK ABOUT THE NATIONAL PARKS OF THE PHILIPPINESBy BRYCE_DERICKI recently bought this book (april 28 2007) and im happy to get this since i never had any idea where and what philippine national parks look like and where are they exactly located...its full of information and photography with some of the unusual flora and fauna found endemic in the country....while the book is chock full of informations and photographs, it still is incomplete as there are some more national parks not shown...a volume 2 would have been made.wish books like these are being published more for awareness of how rich and diverse the country has to offer5 of 7 people found the following review helpful. Environmental masterpieceBy Martin

Stummer This book is the first and only one that focuses on the environmental aspects of the Philippines in a convincing and brilliant way. I hope to meet Mr. Nigel Hicks one day in person. Martin Stummer, 113 Seminario street, Jaro Iloilo (Nagarao Island, Philippines)

The National Parks and Other Wild Places of The Philippines is a prestigious souvenir for visitors to the Philippines, and a stunning introduction to the wildlife and landscapes of this extraordinary country. From multi-coloured reefs teeming with fish and corals, to smouldering volcanoes and dense rainforest harbouring many endemic animals and plants, the Philippines boasts an impressive and precious natural diversity. This evocative yet practical exploration of the country's wildlife and wilderness areas brings to life the natural splendour of these richly-endowed islands. With 310 magnificent photographs, all the major parks of the country are described. Specially drawn colour maps show each area's main features, and visitor information panels provide fully up-to-date details on access, accommodation, and activities including hiking, rafting, birdwatching, fishing and diving.

About the Author Nigel Hicks is a freelance writer and photographer. His work has appeared in numerous magazines and publications around the world. He has travelled extensively in the Philippines and is the author of New Holland's This is the Philippines as well as the forthcoming titles Globetrotter Guide to the Philippines and Photographic Guide to Birds of the Philippines. He lives in Teignmouth, Devon.
