Be careful when you bake the chocolate chip cookies, there is a misprint. Ours came out VERY salty and after watching Ro's video, we realized the book calls for salted butter and 2 teaspoons baking soda (it should be 1 teaspoon according to the video and the butter was not specified so maybe try unsalted butter).2 of 2 people found the following review helpful. Quirky, artsy and creative...definitely recommend!By Prodl wasn't sure what I was getting myself into when I bought the Kindle version of the book. Based on looking at some

screenshots and reading reviews, I thought I would only see clips of images from Ro's videos. I'm glad the book blew me away! There were a lot of designs that I haven't seen before...especially _____ ones!!! (sorry, I won't spoil it for you). It is definitely worth getting it. If you are a fan of baking, decorating sweets, and love art in general, you should get this book. :) 1 of 1 people found the following review helpful. Great for Fans who want a slower pace than the videos
By MegLove this! I became a big fan of Ro's and I wanted an easier way to do recipes at home. Personally, I like the more pop culture related items and this book has more space, science and math themes and that is the only reason it didn't get the 5th star from me. Otherwise, everything I expected and enjoy from the YouTube videos.
