Bibb Jordan : The Pound Cake Book before purchasing it in order to gage whether or not it would be worth my time, and all praised The Pound Cake Book:

0 of 0 people found the following review helpful. Five StarsBy M. MurrayAwesome resource for great results!!1 of 2 people found the following review helpful. Yum!!!!!!By Susan AndersonIt's a tiny little book but the recipes are fantastic! I made 2 recipes and both were truly delicious! There are very clear directions and excellent recommendations on baking to make sure that your pound cake tastes worth the effort. A newbie to baking could still make a great cake by following these recommendations. The variations on pound cake were interesting. There are even recipes for using mini-bundt cake pans. That was useful to me because I have such a pan and have never used it. Now I know what I can bake in it. I wish I had more occasions to bake all of the cakes in this book. I say "occasions" because they are not something to keep in the house. I could not stop eating the pound cake with brandy and candied ginger or the almond pound cake! I'm still working off all of those extra calories! I bought the book used and I wish there were more available on . I paid a lot less than \$80 for mine. The only disappointment was finding a couple of

recipes torn out of the book. Once I looked at the table of Contents I saw that they were recipes that I probably would have enjoyed too. 0 of 0 people found the following review helpful. Yummy, can't wait to make the first cake. ...By jan hulse Yummy, can't wait to make the first cake. I'm going to start with the first one one and bake through to the last one.

Unique recipes for the ultimate comfort food--pound cake! There are enough here to suit every taste, every season, and every occasion.
