It's going to be a chore to make it stay open and not possible without blocking part of the recipes. If this had been published in spirbound it would be PERFECT. I'm thinking of weighing it down by opening it mid-book and laying some thing flat and heavy on it to losing it up BUT I fear doing this may actually weaken the spine.Alas.....it's a beautifully put together book. Thank you.1 of 1 people found the following review helpful. LOVE, LOVE, LOVE these recipes!By S. JohnsonThis is probably the most comprehensive pie cookbook I've ever owned. The recipes I've tried are true. I especially like all the recipes for different pie crusts. They are simple, yes, and they are the ones my mother and grandmother used,

which makes them standard, and that's okay. Now I have them all in one place, so that I know exactly where to go. The pictures in the book are stunning-- and mouthwatering. I'd say, you won't fail by following these recipes. Just make sure you have the ingredients called for.0 of 0 people found the following review helpful. She's not much of a baker but she loves reading through it and contemplating taking the plunge. It sounds odd, but she's more of a food culturist than an actual cook so she really digs this.
