Fantastic resource for beginners and experienced cooksBy Barns formeHave owned this book for about 20 years now, and have replaced my paperback with a hard covered book because I used it so much that my first book is now in two peices.It is such a wonderful, uniquely written, simply to understand book that informs those who really want to understand cooking. I don't think it is written to impress professional chefs but to work with regular people who love to eat Chinese.My best friend (who is Chinese) and I used to cook all the time, and I have lots of experience making Chinese foodand this book added to my knowledge and is still adding to my knowledge years later. The only Chinese cookbook I would own.This is definitely worth owning!!!!You will love this book!
