Parragon Books : The Ultimate Book of Beers Set w/ Tasting Journal before purchasing it in order to gage whether or not it would be worth my time, and all praised The Ultimate Book of Beers Set w/ Tasting Journal:

0 of 0 people found the following review helpful. GREAT BOOK!!!By JessicaMy boyfriend is a total beer snob, the last couple years I feel like all we do is try new beer bars to find the best of each type of beer. When I saw this book I got SUPER excited because it was the perfect gift for him!! I love the way the actual book of beers looks, its really nice with glossy pages and nice pictures. I love the way each beer has its own description and details next to it! I loved the personal ratings book that came with it too!! Sometimes we go somewhere new and we'll really like something so we'll try to get a picture but then when I look at the picture a few months later I might forget what exactly I liked about it or which one of us liked it so it's nice to be able to write it down somewhere. And I like that it's its own separate book so that our handwriting, or more like chicken scratch, doesn't make the pages of the nice book look messy or nasty. DEFINITELY suggest if you have a beer lover in your life or you are a beer lover!!!! He loved it and keeps it displayed at all times!

The book within this slipcase provides a fascinating introduction to the most renowned beers in the world. Including more than 400 of the finest beers from around the globe from Trappist monasteries in Belgium to microbreweries, each beer is accompanied with color photography, historical information, and detailed tasting notes describing the beer's appearance, style, and unique flavors. The accompanying Tasting Notes book allows you to write down your impressions of each beer, capture unique flavours, and mention those things that make the beer distinctive. This key information will help you remember the beer in the future and build up a record of the beers you have tried.
