Three StarsBy CustomerI expected more useful information, but I like its photos, which make the book a good object for browsing.

When it comes to the subject of beer, there are people out there who love nothing better than a cold frosty brew. And a lot

of folks consider themselves experts on all things beer-related - admit it, you might even be one of them. This book provides a whole lot of data on over 400 types of Beers, Ales, Lagers, Stouts, Craft Beers, and when you are done with this book you should be able to identify each of the five previous types of beer. Of course you will need to be fairly sober to remember it all...
