2 of 2 people found the following review helpful. Too expensive for such a bad bookBy ThuI was attracted by the title of the book. However, the content of the book really disappointed me. There was no photo, only recipes and the recipes are not good. For example, 5 star anises in the recipe for beef Pho will give the broth a very strong smell and topping avocado on Pho is the craziest idea that I've ever heard of in my life.12.99\$ is way too much for such a book like this. Google and we can find a lot better ramen recipes from food bloggers who really know what a real bowl of ramen should have.
