Gina Meyers : The Unofficial Harry Potter Cookbook: Summertime Tricks Or Treats before purchasing it in order to gage whether or not it would be worth my time, and all praised The Unofficial Harry Potter Cookbook: Summertime Tricks Or Treats:

It is just about time for Harry and his friends to be school shopping down Diagon Alley. But who said there is no time for fun? Perhaps a tall mug of butterbeer or a trick or treat from Floean Fortescuersquo;s ice cream parlor. Inside, *The Unofficial Harry Potter Cookbook: Summertime Trick or Treats*, you will find recipes inspired from the Harry Potter series including a peanut butter and strawberry pie (which tastes as good as ice cream, but doesn't melt as fast and feeds your friends too), Frogrsquo;s Eye Salad, Godric Gryffindor Drink, Wizarding Out Of This World Mango Panna Cotta, Defense Against The Dark Magic Mousse, Bonbons, Rock Cakes, Pumpkin Juice, Pumpkin Bread, Butterbeer and dozens more. Muggle magic before or after school, anytime is the right time for a forbidden trip to Hogmeade or your kitchen cupboard.
