Gary Lee : The Wok: A Complete and Easy Guide to Preparing a Wide Variety of Authentic Chinese Favorites (Nitty Gritty Cookbooks) before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Wok: A Complete and Easy Guide to Preparing a Wide Variety of Authentic Chinese Favorites (Nitty Gritty Cookbooks):

1 of 1 people found the following review helpful. Replacement book By Cabezablanca This is my 'go to' book for a quick, easy basic recipes. It gives you plenty of information on how to do basic Chinese cooking - and the book gives you the skills to stir fry anything if you follow the principles outlined in the book. I had this book and loaned it out, I don't remember who to so I absolutely had to replace it. It was dog eared and stained, that's how much I used it. You will not get a ton of recipes but you will get the foundational skills to stir fry virtually any recipe you can create using your own imagination. 0 of 0 people found the following review helpful. WOK the talk By Seasoned Citizen Just got an electric WOK. Ready to use the recipes in THE WOK. 0 of 0 people found the following review helpful. What a Wok book this is. By kookie womblat Gary Lee's WOK books are excellent - many useful tips as to how to prepare Chinese dishes - the real McCoy. His attention to small details makes these books a cut above most cookbooks. Although they include recipes, the tips are what make them great.

Rice paper text block. Pen and Ink drawings through out the book. This is a rare combination of fine art drawings and cooking instructions for Chinese Wok cooking.
