Paul Keres : Theory of Chess Openings Open Games by Keres (Russian Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Theory of Chess Openings Open Games by Keres (Russian Edition):

Paul Keres. The theory of chess openings. In two books. Open debuts. Tallinn Estonian state. ed. 1949, 1952. 288 p.

Before applying the novelty in the opening, make sure you did not write about it. Keres, half a century ago! In depth study, this work has no equal. Materials offered in the book are systematic sampling, and of course, a critical treatment of the vast material that the theory and practice of chess found mostly in the last half century, and which, taken together, form what is generally accepted to call "opening theory." Paul Petrovich Keres (birth, Paul Keres, Estonian. Paul Keres; January 7, 1916, Narva, Petrograd Province, Russian Empire - June 5, 1975, Helsinki, Finland) - Estonian, Soviet chess grandmaster, master chess composition. One of the strongest players of the 1930's and 60's. Three-time champion of the USSR (1947, 1950, 1951). Four-time champion of Estonia (1935, 1942, 1943, 1945). Honored Master of Sports of the USSR (1948). Notes in the text.

About the Author Paul Keres was born on January 7, 1916 in Narva in what is now Estonia. Paul Keres was one of the five or six strongest players in the world from 1935 when he emerged as a sensational 19-year-old at the 1935 World Chess Olympics in Warsaw. During most of his life, Keres was the number three player in the world. This unfortunate circumstance led to the top two players in the world playing repeated matches for the World Chess Championship, whereas Keres who was usually number three never got a shot at the World Championship. Keres was a native of Estonia. He was always an Estonian patriot, even though he had to keep quiet about it during the years of Soviet rule. His picture appears on both the money and the postage stamps of Estonia. Paul Keres died on June 5, 1975 by heart attack at the time of an international airplane flight from Vancouver Canada to Helsinki Finland. It appears that he may have died on the airplane flight, as his death has been reported as having occurred in both Vancouver and Helsinki.
