**Gary Dell'Abate : They Call Me Baba Boeey Publisher: Spiegel Grau** before purchasing it in order to gage whether or not it would be worth my time, and all praised They Call Me Baba Boeey Publisher: Spiegel Grau:

1 of 1 people found the following review helpful. Could be better - but still full of Baba Boeey love. By Deborah Maxwell As a superfan of the Howard Stern Show, I read every book every staff member writes. I moved to a new city and didn't have a library card, saw this book CHEAP on and just bought it. It's ok. It hits the highlights of Gary's life and career....tells how he got the job at the HSS, talks about the infamous first pitch, the love tapes and all that stuff that die hard Stern fans will remember. However, it seems to lack any real depth. He jumps from topic to topic, which are not even related to one another...and even skips around with time. You'll be reading a chapter about something that happened at the HSS, and the next chapter he's talking about being back in college....just weird. The part about his brother dying of AIDS was heartfelt and I could feel the pain of losing his brother. I'm sure that wasn't easy to talk about. Also, you come to find out his mother was just kinda "out there" from his early childhood. It's a good peek inside the inner circle of Baba Boeey...I just wish it had been better written to flow more smoothly from childhood>>adolescence>>young adult>>adult>>Stern Show. 0 of 0 people found the following review helpful. If you like the show, you'll enjoy this. By Peter F Raleigh If you're a fan of the show, you have to enjoy it. Really enjoyed the background of Gary's life. Made for a quick, enjoyable read. 3 of 4 people found the following review helpful. Better Than You Might Think..... By William A. Roesler Obviously I am a huge Stern fan. I think you would have to be @ least a long time follower to enjoy this lighthearted book. However it has moments that could seriously bring a tear to your eye. Yes, he does have silly lists of songs etc. etc.....but that's what makes him Baba Boeey! It does have moments

about his dysfunctional family (And I mean dysfunctional). The one thing you will learn that Gary Dell'Abate is a very fortunate man to have survived his upbringing. I am not ashamed to say that I enjoyed this book because you will laugh your ass off realize how loyal Howard Stern is to his employees. The front he puts on is misleading. He has been loyal to Gary, Fred, Robin knew he had the chemistry he wanted. I have personally spoken to other producers that rave about Gary his kindness that he is very good @ his job. Buy a used copy for a penny give it a read.

Will be shipped from US. Used books may not include companion materials, may have some shelf wear, may contain highlighting/notes, may not include CDs or access codes. 100% money back guarantee.
