Loads of ideas, how-toos and recipies. Good pictures to guide you along in the learning process too.0 of 0 people found the following review helpful. Thought it was differentBy Julie BI was looking for more tortilla recipes rather than recipes of what to put in tortillas. Otherwise its a good cookbook.1 of 2 people found the following review helpful. Great recipe bookBy LeleIt is a well rounded book, with not only tortilla recipes but also recipes for mexican/spanish dishes that can be used with tortillas. I got this for my mom and she has not yet tried any, but they look delicious and have great pictures. The only thing is I was hoping for

more actual tortilla recipes, but I guess she can just add things as she likes to change it.

Including quick references on purchasing and identifying tortillas, a diverse collection lists more than twenty-five recipes that range from Southwest Scrambled Egg Burritos to Classic West Texas Beef Fajitas.
