Most pathetic excuse for a recipe book ever!By BashertThere is one, count them 1 recipe for bagels and a bunch of ridiculous, anyone could figure out on their own recipes for spreads etc. It wasn't worth 1 dollar, but publishers will publish anything!shame on the writer. I'm sorry I didn't read reviews before buying. I still can't believe it's only one recipe...how do you name it totally BAGELS...Where does the plural come in???7 of 8 people found the following review helpful. Seriously?By J. EpleyThis book is a ridiculous excuse for a cookbook. I gave it as a gift and was embarrassed to learn there was only one basic recipe for bagels and ALL the other recipes are things you could do with bagels (once you already have one). This is NOT a bagel cookbook, it's more of a how to make sandwiches book.0 of 0 people found the following review helpful. Five StarsBy Sandy Wilkgreat product -- My first Bagels thumb UP
