5 of 5 people found the following review helpful. I thought I was in Vietnam when trying the recipes in this book!By C. BrantThe food in this book is truly amazing. While I haven't ever visited Vietnam, this book shows you how to serve food that is identical to what you get when you visit Vietnam. I have been to restaurants and the food is the same

as I was served there. The best part of this book is the pictures which show you exactly what you can expect when following the recipes. The ingredients aren't hard to find and I loved being able to try different ones and figure out which one I liked best! 1 of 1 people found the following review helpful. It doesn't have the particular recipe I was looking for ...By Kindle CustomerIt doesn't have the particular recipe I was looking for but I still have to give a 5 because there are some I can try. 0 of 0 people found the following review helpful.
