3 of 3 people found the following review helpful. This is the worst book everBy Renee NicolosiThis is the worst book ever! j* There are 500 recipes and no chapters. All the recipes are listed one after the other with no organization.* Every recipe is for a crockpot but that is not on the cover or description anywhere!* It is obvious that no one edited this book. There are typos, errors, bad language, poor writing, confusing writing, etc on every single page. Even the

cover of the book is written poorly. It says "500 vegan recipes for health, energy weight control and time saving". There is a comma missing and the language structure is not correct.* The instructions for how to prepare the recipes is very poor.* There are no pictures in this book.Author -- get an editor and publisher to help you make a good quality product.
