Bobby Chinn : Vietnamese Food before purchasing it in order to gage whether or not it would be worth my time, and all praised Vietnamese Food:

I enjoy the narrative style and the humor in the book.As a Vietnamese I also find the recipes to be very authentic (minus a few spelling errors). Some of the dishes are so authentic that they require an "acquired" taste. My husband cannot eat Roquefort (Blue Cheese): this is the same for some Vietnamese plates for some of us.Although the writing is excellent, I find the photos too boring and too ethnically artsy. I will get more of Bobby's books.2 of 2 people found the following review helpful. Strange, Off-Putting CommentaryBy demari18Okay recipes (some had errors, like listing an ingredient and forgetting to include it in the dish), and I could have done without the 'colorful' language. Some of the stories were completely out of place in a cookbook, like the one dealing with a crazed restaurant owner hacking away at an oven full of live rats with a cleaver. Who wants to cook, much less eat, after

reading about something like that?0 of 0 people found the following review helpful. greatBy American Mideast Research Consignmentthis is not just a cookbook but stories about the Vietnam experience starting a restaurant and becoming familiar with the culture to becoming a celebrity chef he has a great sense of humor LOL at some of the stories very entertaining and the recipes are excellent

Bobby describes Vietnamese food as being as near to Nirvana as he can imagine - fresh clean flavours, light and healthy and incredibly diverse. From simple Grilled Chicken Wings to Imperial Spring Rolls and his own fusion-style dishes this is not just a recipe book but an authentic guide to Vietnamese food as it is eaten today. Special photography by award-winning photographer Jason Lowe and stories about every dish related by Bobby (ex-standup comedian being one of his former lives) make this a true culinary tour. Read about his first experiences of running a kitchen, how he found out the recipe for the secret sauce for grilled chicken and his off the wall tales of the more unusual food and ingredients. Wild, Wild East is a true adventure story for the palate.

About the Author Half Chinese, half Egyptian, raised in England, lived in San Francisco and New York and now based in Hanoi, Bobby Chinn is one of the most respected chefs in Asia. Coming from a family of great cooks Bobby has always been passionate about food and he was taken under the wings of various cutting edge San Francisco chefs - Hubert Keller, Gary Danko, and Traci des Jardine where he learnt his trade. He now owns his own restaurant in Hanoi and his series on Asia is being filmed for Discovery. He has also appeared in the UK on BBC2's Saturday Kitchen and Full On Food.
