**Mowie Kay : Whoopie Pies!: 25 irresistible cake creations** before purchasing it in order to gage whether or not it would be worth my time, and all praised Whoopie Pies!: 25 irresistible cake creations:

0 of 0 people found the following review helpful. Buy used, buy cheap.By brokGood book! Seems no matter how many whoopie pie books you get you're going to end up with duplicate recipes. So buy used and cheap. This one has good recipes and easy to follow instructions. I'm happy with the ones I've tried so far.

This little book is full of deliciously original ideas for the hugely popular whoopie pie - try mocha, pavlova raspberry crunch, mississippi mud pie and chai latte! - all in failsafe step-by-step stages.

About the AuthorMowie Kay's passion for baking developed at an early age, having grown up in a family of German bakers. Mowie documents his baking creations on his popular blog, Mowielicious, and is the author of Macarons and Doughnuts, both by Lorenz Books.
