Jackson writes a good bookBy SakeCatNot a complete reference by any means but a great book. Shares allot of content with another book on because it is an older version so i ended up giving the older copy to friend.I actually bought this to study for the cicerone exam and am disappointed to mention that I did not pass needed to know more about kegging tapping and maintenance of tap and keg systems.nailed the styles though and that's what this covers.0 of 0 people found the following review helpful.
